Linux

Introduction

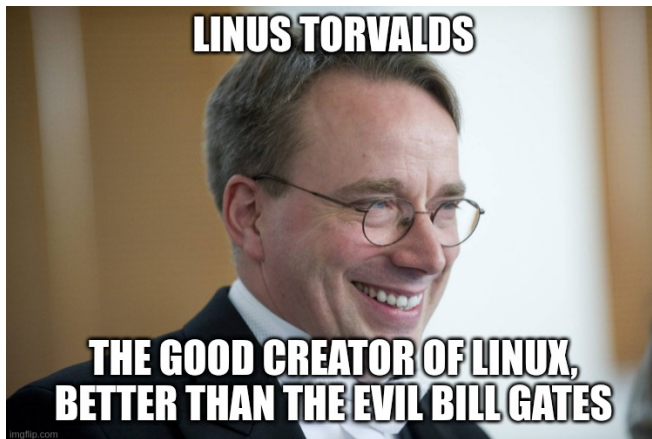

Figure 2: Creator of Linux

What?

- Very popular
- Different distros
 - Ubuntu/Debian
 - Fedora/CentOS
 - ArchLinux
 - Gentoo
 - ...

Why?

- Free and Open Soucre
- Much fewer malware
- Minimalism: install and use what you need
- Compatibility: latest machines as well as 10-years-old ones
- Ease of use
 - GUI: for normal end users
 - Terminal: for geeks, sysad, netad,...
- Ease of maintenance
 - Update whole system with one command
 - Update apps as well
- Customization

How: Alternative GUI applications?
